Parallel talks

- Claudia Höhne
  Strangeness production in nuclear collisions (Tue)
- Art Poskanzer
  Centrality dependence of directed and elliptic flow at the SPS (Tue)
- Glenn Cooper
  Stopping: from peripheral to central nuclear collisions at the SPS (Wed)
- Jeffrey Reid
  NA49 event-by-event analysis (Wed)
- Gábor Veres
  Antiproton production in nuclear collisions at 158 GeV/N (Wed)
- Rudolf Ganz
  A systematic study of intensity interferometry from the CERN NA49 experiment (Thu)
